

FCC Application for Experimental License

File Number: 0127-EX-CM-2019

Exhibit 1: Information on Experiment**Purpose of Experiment**

SRC requests to the Federal Communications Commission to add the following location to our existing Experimental License WI2XXJ for the purpose of testing GMTI performance of a prototype of our X Band GMTI radar. The period of time SRC will be requesting our Experimental STA is from 6/15/2019 through the period of our existing license grant.

Operating Location

The X Band GMTI Radar will be operated from an aircraft at an elevation of 8000 ft (2438.4 meters) within the 10 km (6 mi) radius of operation. The coordinates SRC will use for the center of operation are:

Location	Latitude	Longitude	Ground Elevation (Above mean Sea Level) (meters)	Radius of Operation (kilometers)
Wallops Is, VA.	37°53'4.0"N	75°26'12"W	3ft	10 km

Cease Buzzer Point of Contact

SRC understands that operation will be on a secondary non-interference basis. In the event interference complaints were to occur, SRC has taken preventative measures to cease and desist from transmission until they can be resolved. SRC has established a Cease Buzzer point of contact to quickly react with any interference complaints that are the result of our system. The point of contact for the SRC Cease Buzzer is:

Point of Contact	Telephone Number
Cease Buzzer (Primary)	315-559-0787
Cease Buzzer (Secondary)	202-577-1708
