

FCC Application for Experimental License

File Number: 0560-EX-CN-2026

Exhibit 1: Information on Experiment**Purpose of Experiment**

SRC requests the Federal Communications Commission to grant us an Experimental License for our SRC10800 radar for the purpose of testing and waveform development of an experimental radar. The period of time SRC will be requesting our Experimental License is consistent with the 2 year period of our existing license grant.

Operating Location

The SRC10800 Radar will be operated at a specified radius of operation. The coordinates SRC will use for the center of operation are:

Location	Latitude	Longitude	Radius of Operation (kilometers)
Syracuse, N.Y.	43° 7'52.00"N	76° 5'20"W	5

Cease Buzzer Point of Contact

SRC understands that operation will be on a secondary non-interference basis. In the event interference complaints were to occur, SRC has taken preventative measures to cease and desist from transmission until they can be resolved. SRC has established a Cease Buzzer point of contact to quickly react with any interference complaints that are the result of our system. The point of contact for the SRC Cease Buzzer is:

Point of Contact	Telephone Number
Cease Buzzer	315-452-8000
