Subject: Additional Information Request

Message:

Please address the following questions/concerns:

Spacecap:

Emissions tab - frequencies ranges listed are 437.28375 - 437.29625 MHz. These frequencies do not match the form 442 frequencies 437.2775-437.3025 MHz. Please correct or provide justification as to why they are different.

The applicant proposes to use the 437.28375 - 437.29625 MHz amateur band for space research. This band is not allocated for space research. Although the 4.4 is checked in the spacecap additionally, the applicant will need to provide a FCC and ITU related search and EMC analysis

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 16, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
