---

Message:

Hello, Doug. I am replying for Christian Voelker, as he is traveling; I am helping my German colleagues with the process.

There is not a plan to certify the equipment in it's current state. This request is just for the equipment being tested in the two upcoming events in December '13. There may be changes to the hardware for the next competition season, and ST SPORTSERVICE will most likely submit the finalized equipment for certification in advance of the 2014-15 Bobsleigh World Cup season.

Feel free to give me a call if you need more information: (801) 550-4955.

Regards,

John L.
