Subject: Request for Info - STA File #1143-EX-ST-2013

Message:

The FAA has the following concerns:

- 1) For all locations, user must notch out 5590-5650 MHz to protect FAA weather radars. Are you agreeable to this?
- 2) Furthermore, please provide more technical information describing the emissions characteristics of the transponders (PRR, exact pulse width).

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 07, 2014 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
