Re: Modification to Experimental license K2MXOK.

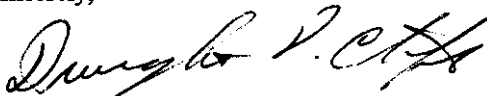

To the Experimental Radio Service:

Enclosed is FCC Form 442 for the modification of Experimental license K2MXOK. The purpose of the modification is to **add** the frequencies from **154.830 MHz** to **155.900 MHz** in 10 Khz increments (see exhibit 1) to the existing frequencies of license KM2XOK.

No application fee accompanies these applications as the State of Alaska is a government entity and therefore, no fee is required.

If any questions arise concerning these applications, please call me at (907) 267-5744

Sincerely,

Dwight Clift
A/P III
