Subject: Request for Info - File # 0215-EX-CN-2018

Message:

1. Why are your ground stations listed as mobile if they are at fixed locations?
2. Why is "State of Alaska" entered into the "mobile area of operation" field when this appears to be at a fixed location in Fairbanks?
3. Your emission designator contains an "X" in it. Coordination with NTIA requires a full explanation for the selection of the letter X. NTIA often tables records with "X" in the emission regardless of the explanation. You may wish to choose another allowed character, if possible.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 26, 2018 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
