Subject: FCC file number 0770-EX-ST-2011

Message:

Mr. Hou,

- 1) Please provide the "Latitude and Longitude" of the location.
- 2) Please provide the "Emission Designator"; it should have a "letter-number-letter" sequence. You could get this information through your engineers or from the equipment. I also will need the "Effective Radiated Power" (ERP), not the "Equivalent Isotropically Radiated Power" (EIRP) for each frequency bands.

Now, the Aerospace & Flight Test Radio Coordinating Council (AFTRCC) oversees the frequency bands; 2310-2320 MHz, and 2345-2390 MHz. These frequency bands need to be removed or need to be prior coordinated. The Aerospace & Flight Test Radio Coordinating Council (AFTRCC), the telephone number is (770) 494-2893.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of December 20, 2011 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://fjallfoss.fcc.gov/oetcf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
