

AGENCY: UNITED STATES SPECIAL OPERATIONS COMMAND (USSOCOM)

CONTRACT NUMBER: H92222-10-D-1013

PROJECT DESCRIPTION:

Teamcor is under contract for the next two (2) years to provide support in the form of procurement, warehousing, testing, and verifying the operational condition of certain equipment items. In the process of the testing and the operational verification of equipment, a small number of items may require active transmitting on the frequencies identified in Teamcor's FCC 442 document. The requirement to actively transmit on these frequencies makes up a very small portion of the overall effort and is infrequent.
