

RE: STA File Number 0149-EX-ST-2014 (Filed February 21, 2014)

STA Confirmation Number EL671113

TECORE SUPPLEMENTAL ANSWERS TO APPLICATION QUESTIONS #4 and #5

#4

Tecore is providing a capabilities demonstration of its 3G RAVEN platform for the United States Special Operations Command (SOCOM) at the Test Exercise 2 (TE2) event. The purpose of the operation is to demonstrate the RAVEN's capabilities to support voice, text, and packet data operations between ship and shore. The RAVEN is a tactical 3G network that operates in Band 1 of the UMTS frequency allocations. The request for the STA is being filed to cover the temporary use of vacant/unused spectrum that will support the Band 1 UMTS system being used for the demonstration.

Operating Band - 1

Frequency Band - 2100

Common Name - IMT

Up Link (From Mobile) 1920-1980

Down Link (To Mobile) 2110-21702.
