Exhibit 1

QUESTION 4: STATEMENT REGARDING GOVERNMENT CONTRACT

The proposed experiment supports Telcordia deliverables for the Defense Advanced Research Projects Agency (DARPA) program entitled "Situation Aware Protocols in Edge Network Technologies," which is developing new technology to improve the performance of Department of Defense mobile wireless communications systems. Telcordia's contract agent for this program is the Army's Communications and Electronics Command (CECOM), and the contract number is W15P7T-05-C-R402.
