Subject: Request for Info - File # 0043-EX-PL-2006

Message:

If the technical parameters of the new radar were identical to the one approved for WA2XYL, then no new application is necessary - see Part 5.77 of the FCC's rules. If the technical parameters of the new radar are different, then the filing of the current application is proper, but the new technical data must be entered into the application using the "Amend/Complete Application" link on our electronic filing site located at <https://gullfoss2.fcc.gov/prod/oet/cf/els/index.cfm> and all data related to the previous radar must be marked for deletion. Also, you are required to submit a narrative statement describing in detail the program of research and experimentation proposed, the specific objectives sought to be accomplished; and how the program of experimentation has a reasonable promise of contribution to the development, extension, or expansion, or utilization of the radio art, or is along lines not already investigated. You may use the "Add Attachments" link on the aforementioned filing site.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 01, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://gullfoss2.fcc.gov/prod/oet/cf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
