Subject: ITU Cost Recovery Declaration for the Project Mayhem Radio operating in the Bishop Airlock on the International Space Station

Reference: FCC Experimental Application File Number: -EX-CN-2026
Call Sign: tbd

Dear Ms. Dortch:

Teralink is aware that in accordance with Resolution 88 of the International Telecommunication Union's (ITU) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite network filings received by the Radio Communications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite network filings. Teralink hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the radio that Teralink will own and operate in the Bishop airlock on the International Space Station. Please address all cost-recovery inquiries, and ITU correspondence and filings, related to the filings that Teralink will own and operate on the International Space Station to the following point of contact. We understand that should there be any change in the point of contact information, we will inform the Commission withing 30 days of the foreseen event.

Point of Contact Name: Erik Halliwell, Electrical Engineer, Teralink
Organization Name: Teralink Technologies Inc.
Address: 1 Broadway, 14th Floor, Cambridge, MA 02142
E-Mail: erik@teralink.space
Telephone Number: +1 780 667 1168

Teralink understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the ITU invoice, unless an appeal filed prior to the due date is pending with the ITU. We fully understand that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. We also acknowledge that, in accordance with 47 C.F.R. §25.111, should we have an overdue ITU cost-recovery fee and have no appeal pending with the ITU, the Commission may dismiss any application associated with that satellite network.

Sincerely,
/s/ Erik Halliwell

Erik Halliwell, Electrical Engineer
