## **Application Narrative for Proposed Equipment**

### **Proposed Program**

Texas A&M Transportation Institute is proposing GPS within their laboratory facility for testing purposes.

### **Objectives**

We seek to accomplish the following objectives:

1. Illumination of the part of the lab facility, located at 1111 Rellis Parkway, College Station, TX with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their electronic devices to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
