Subject: FCC File 1046-EX-ST-2015

Message:

Sorry for the confusion in the location filed in this license application.

The correct location description for both the 'why STA is necessary/Purpose of operation' and the location designation for this application is:

Latitude 33.50 North, Longitude -100.978 West, approximately 3km Northeast of McAdoo, Texas in an open farmland wind farm.

Thanks and regards,
Jerry Guynes
