

07/16/15

Exhibit 1

Revised information regarding Station location (18)

During the review of the current license (Call Sign - WE2XEZ) in preparation for the renewal, an error was found with the Latitude and Longitude (42° 32' 19"; 71° 09' 07") for Station Location (18). It was determined that the location of this station should be the same as (19). The correction is to change the seconds of the West Longitude highlighted below from 07" to 17" so the correct Latitude and Longitude for Station Location (18) is (42° 32' 19"; 71° 09' 17").

Station Locations

- (1) Wilmington (MIDDLESEX), MA - NL 42-32-17; WL 71-09-15
- (2) Wilmington (MIDDLESEX), MA - NL 42-32-17; WL 71-09-15
