Application Narrative for Proposed Equipment

Proposed Program

Textron Systems is proposing GPS within their laboratory for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the laboratory, located at 520 South Garnet Street, Tooele, UT with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their GPS receivers to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
