May 10th 2019

Dear Ms. Leann Nguyen,

Thank you for your correspondence with regards to File Number 0219-EX-CM-2019 received on 08/07/2019. You have requested the purpose of operations in details. The purpose of our request in file number 0219-EX-CM-2019 is to modify our current antenna license under callsign WI2XUK to allow a fifth installation of the same antenna equipment located on our building at 53 Discovery in Irvine California under that callsign. The purpose of our operations is to allow Thales to test over the air our development software baselines. The antennas under callsign WI2XUK enable that capability.

If you need any additional information, please do not hesitate to contact me directly.

Sincerely,

Andrew Burne
