Subject: RE: Request for Info - STA File #0496-EX-ST-2017 & 0500-EX-ST-2017

The coordinates for 0496 are not correct. They are somewhere on the East Coast. The longitude for the second location of 0500 is also not correct (10°20'3"). Please fix one or the other application and request withdrawal of the other.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 20, 2017 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

Subject: RE: Request for Info - STA File #0496-EX-ST-2017

Mr. Chavez:

There is another file (0500-EX-ST-2017) that looks very similar to 0496-EX-ST-2017. 0500 is paid for and 0496 is not. Is there any reason to keep 0496? 0500 has the same issues as 0496 with confidentiality and the question of altitude for the airborne transmitter ("Is licensing for the airborne transmitter requested in this application? If so, what is the maximum altitude of the airborne transmitter?"). 0500 also does not have emission designators listed in the application form data. Let me know how you would like me to proceed.

Douglas,

This was a mistake on my part, it shouldn't have been marked confidential, I'll try to make the changes via the link below.
