BOEING
Subject: Application for Experimental License

Gentlemen:

The attached FCC Form 442 is submitted to obtain an Experimental license to conduct High Intensity Radiated fields (HIRF) testing at our Boeing Field plant.

Similar testing has been conducted at Tucson, AZ, Glasgow, MT & Tulalip, WA under FCC licenses KK2XBT, KK2XBU & KK2XCV.

In the event that a license can not be issued by October 1, 1993, request an STA be issued for the interim.

Your consideration of this proposal will be greatly appreciated. Should additional information be required, please contact Gerry Broerman at (206) 393-2971.
