Subject: Request for Info - File # 0891-EX-ST-2026

Message:

The STA states that the requested frequencies are required to properly run our EME Certification Ground Test and verify no Electromagnetic Interference (EMI) at these specific test frequencies, but then lists a range of frequency bands.

Since this STA is not being conducted on the ground and is being done at a flight level of 40,000 ft AGL,, within 200 km , centered around NL 30-13-49; WL 81-52-56", which is a large area for testing with a huge potential for interference.

Please list specific frequencies within the request bands since there are numerous public safety frequencies within the bands listed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 12, 2026 may result in application dismissal pursuant to 47 CFR § 5.67 and forfeiture of the filing fee pursuant to 47 CFR § 1.1111.
