

0042-EX-ST-2006

The Boeing Company

1/19/2006

The Technical Description has an error for the LAT-LONG for the second Tukwila, WA location. The correction has been made in the application. The LAT-LONG coordinates should be:

47-30-54

122-17-47

NAD83

The difference is about 200 feet and should not affect the FAA-SBE coordination.

If or when the SBE coordination is received, I will submit it and send an email to your attention.

Thank you,

Chuck Zappala

Enterprise Commercial Licensing Coordinator
