### Purpose:

For the purposes of annual testing and certifying RF shielded enclosures on Boeing property. All operations will be conducted indoors and on Boeing property. Center frequencies requested are outlined in the procedures in NSA 65-6, *National Security Specification for Shielded Enclosures*.

A CONUS license is required due to the fact that The Boeing Company has numerous facilities around the Continental U.S. that requires this testing and certification be conducted.

### Location:

CONUS

### Requested Frequencies:

All frequencies will have the Emission Designator N0N.
