Technical Description:

RENEWAL OF WG2XXG : 0695-EX-PL-2013

Testing to Verify Aircraft Communication Systems performance after Depot Maintenance.
Testing Aircraft on-board communication systems for compatibility and coupling mechanisms, internal electronics and wiring. Transmit time not expected to exceed 3 hours per test at longest. Also capable of testing off peak hours to reduce any risk of interference, if necessary.

STOP BUZZER:

James L Taylor

Operation Start Date: 11/30/2014

Cell: (316)209-1576

Operation End Date: 11/30/2018

Email: james.l.taylor2@boeing.com
