JUSTIFICATION

This license is required to support field mapping inside airframe structure to support wireless sensor development and compliance assessment.

TEST OVERVIEW

Frequency range:	G2.4 – 2.5
Max. Externally Radiated Power:	200 Watt
Dwell time at each frequency:	10 ms
Avg. Power at each Frequency:	2 mW
Emission:	NON
Signal Type Discrete Frequency Stirring:	Stepped CW

LOCATION

Lat: 47° 31' 56" N
Long: 122° 18' 58" W

Stop Buzzer Point of Contact:

Jason Bommer: 206-544-7515

DATES OF OPERATION

Start Date: May 15, 2013 for 6 months
