Subject: FCC File# 0447-EX-PL-2014

Message:

Leann,

I just sat down with the program and they were wrong on the spec sheet. The center frequency will be 10.65 GHz with a bandwidth of 150 MHz (10.575 - 10.725 GHz) operating on a 27% duty cycle. Please let me know if I need to amend this application or not?

Thanks,

Dan McNeil
