

The FAA has requested that we modify the current license to reflect the new Ramp testing frequencies.
The NGT numbers for each are located in the document labelled "NGT for TACAN Request Palmdale", also attached.

The license has been changed through the FCC OET Application Site as well as being reflected in this document.

The following Ramp Frequencies are being requested for this license WH9XLR...

973 MHz
1099 MHz
975 MHz
1101 MHz
1021 MHz
1147 MHz
1162 MHz
1036 MHz
1168 MHz
1042 MHz
1184 MHz
1058 MHz
