Subject: Request for Expedited Processing, file
0511-EX-ST-2007

Request expedited processing of the application for Special Temporary Authority, file 0511-EX-ST-2007 to support demonstration of Direct Network Waveform (DNW) system for the U.S. Army. This demonstration was requested by the Army to occur the week of November 12, 2007, with preliminary set-up and testing to be conducted the week of November 5, 2007.

The DNW system is part of the Army's Advanced Warfighting Capability Improvement initiative, and provides rapid and secure communications in support of worldwide military operations. This capability is vital to increasing the safety and security of our military forces operating in a combat environment.

Your consideration in this matter is greatly appreciated.
