Subject: Application for Experimental License
High Intensity Radiated Field (HIRF) Testing
Tulalip, WA

Gentlemen:

The attached FCC Form 442 is being submitted to obtain a new Experimental License to conduct data gathering tests to comply with the certification requirements for High Intensity Radio Frequency (HIRF) "Special Conditions". This application modifies our previous Experimental License "KC2XCV" FCC file 1403-EX-PL-90, for Tulalip WA.

Please keep this office informed of any problems or anticipated delays in the issuance of this license.

Should you have any questions or desire additional information, please contact Bob Douglass at (206) 657-6421 or doubbx00@ccmail.ca.boeing.com (email).
