

November 21, 2019

To Whom It May Concern:

This is to certify that:

Ruckus Networks deploys and/or manages radio frequency equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by Ruckus Networks in a controlled environment.

Ruckus Networks will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

Ruckus Networks has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe Ruckus Networks meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

Jon P. Sevier

Sr. Delivery Consultant

Ruckus Networks
