File No. 0031-EX-ST-2000

Exhibit 4
Environmental Information
RF Radiation

This application, which requests authority to operate radio facilities under Part 5 of the FCC Rules, is not subject to routine environmental review because the effective radiated power will be substantially less than the 100 Watt (20 dBW) level specified in Table 1 of Section 1.1307 of the Commission's Rules. Operations will be consistent with the radiated field strength permitted for unintentional radiators under Section 15.109 of the Commission's Rules. Radiated power will not exceed -73 dBW/MHz. The overall ERP is 60 microwatts; overall EIRP is 36 microwatts.
