Time Domain Corporation
Experimental STA Request
Jan 23, 2001
File No. 0039-EX-ST-2001

Exhibit 3 *(amended)*
Operational and Geographic Information

This request seeks a special temporary authorization to evaluate ultra wideband ("UWB") technology:

Date:

Feb 20, 2001

Time:

8:00 – 6:00 pm (PST)

Location:

3Com Headquarters
5400 Bay Front Plaza
Santa Clara, CA 95052
37:24:38.405N

121:58:52:219W

*Note: According to the **FCC TOWAIR** database, the nearest landing area to the 3M Headquarters is the **SAN JOSE INTERNATIONAL**, which is 3.4 miles away.*

Purpose: Demonstrate time modulated Ultra-Wideband (UWB) Special Operations/Low Intensity Conflict Symposium & Exhibition as discussed below.

Purpose: This authority will permit the operation of ultra-wideband laboratory test equipment for the purpose of evaluating the functionality of the UWB technology being developed by Time Domain Corporation.

Number of units: 4 PADS

Antenna gain: nominally 0 dB

Radiated power: less than – 71.25 dBW/MHz per device

Note: The radiated emissions level will not exceed the limits that would apply to an "unintentional" radiator under the general Part 15 limits set forth in Section 15.109 of the Commission's Rules.

Public interest showing:

The Commission has heretofore found it to be in the public interest to explore the development of ultra-wideband technology. *See Notice of Inquiry* in ET Docket 98-153 released September 1, 1998 and *Notice of Proposed Rulemaking*, released May 11, 2000.

The purpose of the operations to be conducted under this requested authority will be to evaluate UWB as a potential technology in support of products that our company is considering developing. We realize that U.S. regulations at the time of this request have not been adopted by the Commission and that the Commission may not adopt regulations for UWB or may adopt regulations that are significantly different from the regulations proposed in the May 11 *Notice of Proposed Rulemaking* and that the regulations may affect any products that we design.
