Some time ago you had requested information on what government contracts Time Domain Corporation has when considering an STA. I am worried that this information never made it to you. I am located in Huntsville, AL, and we were trying to get the DC office to coordinate getting you the information, and I think there was a communication problem. We have had some staff turnover that has really confused our internal STA requests. Shirley Talley used to handle all of our requests, you were probably used to seeing her name on several of our requests. Anyway, she no longer works here, and just recently Michal Freedhoff, who was our main FCC liaison in the DC office, has left to take a job on Capitol Hill. So, you may have received this long ago, but I worry that you never did. So I hope this is old news. Just so you know, Sue Pash in our DC office, is now supposed to be handling all of the STA requests.

Thanks for your patience, if you have any questions, feel free to ask. I probably won't know the answer but hopefully can hook you up with the person who does!

Rachel Reinhardt

Contract Number	Agency	Description
70NABOH3035	Department of Commerce	NIST ATP Program
DAAH01-01-C-R038	U. S. Army AMCOM	SBIR Phase II
