Experimental STA Request
December 18, 2002
File No. 0447-EX-ST-2002

Exhibit 2
Necessary Bandwidth – RadarVision

The necessary bandwidth for the purposes of this STA request should be considered to be 2 GHz. In the frequency domain, the signal would have a nominal center frequency at 2 GHz with energy extending 1 GHz above and below the nominal center. The necessary bandwidth for these purposes has been determined experimentally through laboratory measurements.
