Subject: Request for Info - File # 0019-EX-ML-2006

Message:

As I understand it, the purpose of the modification is to add an antenna with a smaller vertical dimension than the one already authorized. Both antennas show output powers of 20 W and ERPs of 20.4 kW. In other words, the relevant technical parameters are identical. Is this correct?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 13, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
