TrellisWare plans to operate in the 225-400 MHz spectrum range only on frequencies that are outside the FAA's "Annex A" bands. Officials state that no FAA coordination is required for the 225-400 MHz band, because no Annex A bands are included.

Regarding operations in the 1375-1390 MHz, band, TrellisWare has obtained FAA coordination. The FAA coordination number is NG T180196.
