Application Narrative for Proposed Equipment

Proposed Program

Trillium Engineering is proposing GPS within their laboratories for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the two labs in the facility, located at 202 Wasco Loop STE 102, Hood River, OR with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their geolocation devices to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information
