Exhibit 1

Trimble Navigation manufactures Standard-C Equipment for use in land applications within the U.S. and abroad. This license is requested for the purpose of marketing, test and demonstration at trade shows or customer sites throughout the U.S. and continued product development using fixed sites and land vehicles. The Inmarsat-C and Solidaridad systems will be used by this Standard-C equipment.

Registration for service activation of Land Mobile Earth Station & Aero-C

Sections 1-4 and 7 are to be completed by all customers.
Tick boxes as appropriate.
