Re: Triton Network Systems, Inc.
Application for New Experimental Authorization

6213-98

Dear Madame Secretary:

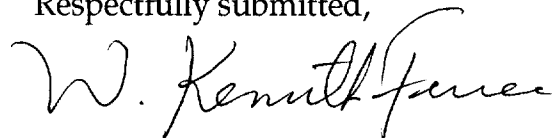

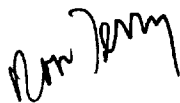

Triton Network Systems, Inc. ("Triton"), by its counsel, hereby corrects two typographical errors made on its application, submitted to the Commission on July 15, 1998, for a new experimental authorization under Part 5 of the Commission's Rules.

On Section 1, Page 2, the applicant's name should read **Triton Network Systems, Inc.**

On Section 4A, Page 2, the last frequency range in the list should read **38600-40000 MHz.**

Please direct any questions with regard to this matter to Ryan N. Terry of our office.

Respectfully submitted,

W. Kenneth Ferree
Attorney for
Triton Network Systems, Inc.
