Re: **EXPERIMENTAL AUTHORIZATION**
Consent to Use of EBS Channels B123 in Washington, DC

Dear Mr. Talley:

The Maryland State Department of Education ("MSDOE") is the licensee of EBS Station WNC845 on Channels B1-B4 in the Washington, DC market. Station WNC845 is subject to a de facto transfer lease with Clearwire Spectrum, Holdings III, LLC, LLC, which is a wholly-owned subsidiary of Clearwire Corporation ("Clearwire"). TWC Wireless, LLC ("TWC") has requested the temporary use of all or portions of Channels B1, B2 and B3 (specifically, 002518.50000-002535.00000 MHz) (the "Spectrum").

Clearwire supports TWC's proposed testing, and pursuant to the lease between MSDOE and Clearwire, Clearwire is requesting MSDOE's consent to TWC's use of the Spectrum for one year, commencing upon the grant of an application for Experimental Authority to be filed with the Federal Communications Commission ("FCC").

By its signature below, MSDOE hereby consents to TWC's use of the Spectrum for the period specified above to conduct Wi-Max testing at its lab in Herndon, Virginia.

TWC agrees to operate on the Spectrum in accordance with the rules and regulations of the Federal Communications Commission, and to take all necessary steps to cause no interference to any current operations and to protect and preserve the status of the License and Lease associated with the Spectrum. There will be no commercial use of the spectrum pursuant to this experimental application. Without limiting the foregoing, TWC agrees that in the event of interference, it will, within four hours of receiving notice of same, cease any use of the Spectrum, until any interference issues that might arise are resolved to your satisfaction.

MSDOE believes that its consent to this trial will benefit it and other EBS licensees. The parties acknowledge that this letter will be attached to the application for Experimental Authority to be filed by TWC with the FCC's Office of Engineering and Technology.
