Dear Mr Huie,

Further to your e-mail this morning, the info you require is as follows.

1. OTC conference is from 1 May to 4 May inclusive (extra dates on application form are to allow for carriage etc)
2. We will be demonstrating 1 (one) transmitting unit only operating at 250 microwatts along with its receiving counterpart unit.

I trust this information is as you required, do not hesitate to contact me if you need further information.

Our sincere thanks for your help, we look forward to hearing from you shortly.

Best regards

Paul
