Subject: Request for Info - File # 0789-EX-CN-2026

Message:

Good morning, As we currently operate under an STA, we will need a more permanent license to follow. Several months ago, I filed for a new license under the ULS, but was denied under 47 CFR Part 87, as there is no allocation for the use of the applicable frequencies (3300-3400 MHz). As part of the reasoning for the denial, I was told to apply for a license within the ELS citing eligibility under 47 CFR 5.3(c), as this equipment is related to a contract with the US Navy. Additionally, the radar does not have an FCC ID yet, so under 47 CFR 2.805(b), I must file with the experimental radio service for licensing. Thank you,
Daniel Turbe
