Attachments: TRK 190974_NG T191032_Card3_Approved.txt; NTIA-Card3-Descriptions.pdf

Dear Scott Palo,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 190974 is assigned an FAA Coordination number NG T191032 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

COMMENTS: NONE

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 8/16/2021; if you need an extension, please submit an inquiry via WebFCCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record Parameter
Serial Number	NG T191032
Frequency	M5182.0000
City	BREWSTER
State	WA
Transmitter Radius	0001
Transmitter Latitude	480851.00N
Transmitter Longitude	1194148.00W
Antenna Height	0052
Receiver Latitude	480851.00N
Receiver Longitude	0000000.00W
Antenna Type	PARABOLIC

Best regards,

FAA Spectrum Engineering Services
