Subject: Additional Information Request

Message:

Dear Mr. Sangani,

Experiments in Colorado and New Mexico are a part of already funded research project. That is why the two states are mentioned explicitly in our application. There is another observational campaign planned in New Mexico and Wyoming as a part of a pending proposal (which is highly likely to be accepted). Our longer-term plans include Washington State and Florida.

Since this license cannot be requested for the period of time longer than 2 years, I believe it's safe to leave only Colorado, New Mexico and Wyoming in the list of locations. Please tell me if this needs additional elaboration.

Best regards,
Nikolay Zabotin
