Subject: ITU Cost Recovery Declaration for the Gravitational Reference Advanced Technology Test In Space (GRATTIS) Satellite Network Operating in Non-geostationary Orbit in the Non-planned Frequency Bands. [GRATTIS]

Reference: FCC Application File No. 0711-EX-CN-2026; Callsign [TBD]

Dear FCC Secretary,

University of Florida is aware that in accordance with Resolution 88 of the International Telecommunication Union's (ITU) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite network filings received by the Radiocommunications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite network filings. University of Florida hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the GRATTIS satellite network. Please address all cost-recovery inquiries, and ITU correspondence and filings, related to the GRATTIS satellite network to the following point of contact. We understand that should there be any change in the point of contact information, we will inform the Commission within 30 days of change in point in contact.

Point of Contact Name: John W. Conklin
Principle Investigator

Organization Name: University of Florida

Address: Mechanical and Aerospace Engineering
NEB 461
Gainesville, FL 32611
USA

E-Mail: jwconklin@ufl.edu

The Foundation for The Gator Nation

An Equal Opportunity Institution

Telephone Number: 350-392-0614

University of Florida understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the ITU invoice, unless an appeal filed prior to the due date is pending with the ITU. We fully understand that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. We also acknowledge that, in accordance with 47 C.F.R. §25.111, should we have an overdue ITU cost-recovery fee and have no appeal pending with the ITU, the Commission may dismiss any application associated with that satellite network.

Sincerely,

A handwritten signature in black ink, appearing to read "J.W. Conklin". The signature is fluid and cursive, with the first name "John" and last name "Conklin" clearly distinguishable.
