

Block 6 – Description of the nature of the research project being conducted:

This application is being submitted as part of a Certificate of Authorization or Waiver (COA) application with the FAA to permit unmanned aircraft flights in support of the University of Maryland's research and development of unmanned systems. Flight operations will launch and recover from Crisfield Municipal Airport (W41). Use of the frequencies requested on this application are critical to approval of the COA and ultimately to the desired research.

Block 12 – Narrative statement describing the type of Applicant:

The University of Maryland is a state owned university with corporate offices located in College Park, Maryland.
