Mr. Kennedy,

1) The experiment will be performed under an NSF grant.

2) The NSF grant is for an Engineering Research Center (ERC) for Collaborative Adaptive Sensing of the Atmosphere (CASA) which consists of ten years of funding. So far we're on our third year and we intend to conduct further experimentation during the remaining period. I presume that 5 years is the maximum time for a license instead of 7, therefore we would like obtain a five year license if possible.

Regards,

Manuel A. Vega

Mr. Colom,

- 1.) Is this experiment being perform under a U.S. Government contract, or is it being performed under a NSF grant?
- 2.) Please justify the need for a five-year license as opposed to a two-year license.
