Dear FCC,

This letter is to confirm the reason for applying for exemption from a filing fee for an Experimental Program License.

Our group is part of the University of Vermont, which is a state public university. This should qualify us for exemption. Attached is a copy of recent email correspondence with [ELB@fcc.gov](mailto:ELB@fcc.gov).

Sincerely yours,

A handwritten signature in black ink, which appears to read "Dr. R. Huston". The signature is fluid and cursive.

Professor of Mechanical Engineering

**Subject:** questions concerning filing of experimental program license

Hello FCC,

I am in the process of attempting to file for an Experimental Program License. I think I have loaded the required information correctly onto your website with the information.

Confirmation Number: EL800954  
Application File Number: 0078-EX-PN-2018  
Date of Submission: 2018-10-23 17:14:18.483

At this point the site is asking for a filing fee submitted with form 159, but that there is a possibility of being exempt. As a non-profit public university, are we exempt? If no, how much is the filing fee?

Also since this is the first time I have applied, perhaps there is a possible source of guidance as what to include in the application. If you have any suggestions, please send them.

Thank you,

Dryver
