As you may be aware, on July 12, 2007, Sea Launch filed an application for Commission approval for the pro forma assignment of experimental license call sign WA2XQQ from US Sea Launch to Sea Launch Company, L.L.C. As Sea Launch acknowledged in the application, the pro forma assignment actually took place in 2004, but, due to an oversight, an FCC application was never filed.

The application before OET is associated with a lead application that Sea Launch filed with the Wireless Telecommunications Bureau ("WTB") also on July 12th for the pro forma assignment of various wireless licenses that are held by Sea Launch. Sea Launch made the same disclosure to the WTB that was made in the OET application. On July 20, 2007, the WTB consented to the pro forma assignment of the licenses. See WTB File No. 0003107774. Subsequently, on July 26, 2007, the WTB accepted Sea Launch's consummation notice and associated waiver request. See WTB File No. 0003120453. Therefore, the WTB's review of the application appears to be complete.

Please let us know if you have any questions about this matter or if we can provide you with any additional information.

Thanks,
