Subject: STA's recently filed

(213) 773-3081

I just filed the following STA's for Sea Launch operations in Long Beach in regards XMRadio-3 mission.

0427-EX-ST-2004, 0428-EX-ST-2004

I made some errors which I hope you are able to ammend to the applications. I have tried from this end but am never allow access to edit.

0427-EX-ST-2004 changes:

Applicant signatory should be changed from Richard Williams to Kari Stromsland as to the representative filing the application for Richard Williams. Richard Williams remains the applicant.

The end date should be 4/10/2005, not 4/10/2004.

The emissions for low frequencies should read the same at PM, BW 100 kHz (the add emission check box did not work for me).

The emissions for high frequencies should read the same at 250 kHz NRZ-FSK/FM, BW 630 kHz.

0428-EX-ST-2004 changes:

The emissions for low frequencies should read the same at PM, BW 100 kHz.

The emissions for high frequencies should read the same at 250 kHz NRZ-FSK/FM, BW 630 kHz.

Thank you.
